

## **CCTV Penalty Charge Notices**

Medway uses CCTV enforcement for parking and traffic breaches to provide a safer environment and to make sure that our roads are less congested. The mobile vehicles have a CCTV camera attached for capturing evidence of vehicles parked in breach of the Traffic Management Act 2004. Static automatic numberplate recognition cameras are in place to enforce vehicles in breach of the Transport Act 2000, such as driving in a bus lane.

In these circumstances, penalty charge notices will not be attached to a vehicle or handed to the driver, but sent through the post to the registered owner of the vehicle. Signs are clearly displayed for motorists to see wherever there is CCTV enforcement in Medway.

If you have received a Penalty Charge Notice and would like to view the evidence online please enter your Penalty Charge Number (beginning MW) and your Vehicle Registration Mark (VRM). Footage will only be available to view 24 hours after issue.

We cannot use a mobile vehicle to enforce on-street parking. Find out more from [GOV.UK](https://www.gov.uk).
