Subject: Strood Waterfront Development Brief Consultation

Thank you for consulting us on the above Development Brief, it is a very comprehensive and well written document. I am pleased to see that air quality , noise and contaminated land feature in the document and that references have been made to the relevant policies and guidance documents.

The only comments I have to make are as follows:

Section 1.21. Medway Regeneration Strategy: 'A new Regeneration Strategy is being drafted for publication in 2017'
. Has this been published or maybe should be changed to 2018.

If you require any further information regarding the issues I have raised, please do not hesitate to contact me.

Kind regards

Lucy Kirk
