

## Brett Group – suggested revisions to Medway Core Strategy

14/06/12

### Spatial Vision

Add the following:

*The sustainable winning, processing and transportation of minerals and mineral products, centred on Thames wharfage, will be encouraged.*

### Strategic Objective 15

Provide a separate objective for waste and add the following:

*To develop sufficient capacity to supply, process and transport minerals and mineral products in order to meet local requirements and to contribute to regional and national needs for marine won, land won, recycled and secondary aggregates.*

### Policy CS22

Add the following:

*The council acknowledges the increasing need for marine won minerals and will facilitate the mineral industry in meeting this need, by balancing environmental, social and economic considerations at existing, planned and potential wharves, rail links, processing plants and factories.*

### Policy CS31

Add the following:

*The council will facilitate the increasing demand for marine won minerals landed at existing marine wharves and the operations at ancillary processing works, by balancing social, environmental and economic considerations.*
