

CATEGORY AND DEFINITION	
Trees unsuitable for retention	
Category U	Trees in such condition that they cannot maintain by retained as living trees in the current land use for longer than 10 years
Trees to be considered for retention	
Category A	Trees of high quality, which are estimated remaining life expectancy of at least 20 years
Category B	Trees of high quality, which are estimated remaining life expectancy of at least 20 years
Category C	Trees of fair quality, which are estimated remaining life expectancy of at least 10 years, or young trees with a stem diameter below 100mm

Not to scale

LEGEND	
	Existing Tree/Hedge BS 5837:2012 Category B
	Area within woodland regularly coppiced
	Existing Tree/Hedge BS 5837:2012 Category C
	Existing Tree/Hedge BS 5837:2012 Category U
	Line of Root Protection Area (RPA) - calculated following guidelines set in BS 5837:2012
	Existing Tree/Hedge to be Removed BS 5837:2012 Category U
	Additional features which don't meet BS 5837:2012 categorisation but is included for reference
	Dead or Dying Tree
	Indicative area of fallen trees
	LDA DESIGN Development Parcels
	LDA DESIGN Building Footprint
	Existing hards surfacing within the Root Protection Area

**NOTE:**

Hayden's Arboricultural Consultants were provided with a Block Plan which showed the position of the trees within the site. These positions have been used for the locations for the survey. The position of the trees within the site and the surveying features should not be taken as exact but gives a fair distribution of their locations on site.

The position, condition, and dimensions of the trees are based on a site survey undertaken on 28/08/18  
 \*The original of this drawing was produced in colour - a monochrome copy should not be relied upon\*
