Overview

This handbook provides the information needed by Secondary/Middle deemed Secondary schools in England to complete the School Census Autumn 2019 Return, which this year takes place on Thursday 3 October.

The School Census Autumn Return is required to be completed by maintained Nursery schools, Primary schools, Middle schools, Secondary schools, All-Through schools, Special schools, Pupil Referral Units (PRUs), City Technology Colleges (CTCs) and Academies (including free schools) in England. Non-maintained Special schools are also required to submit the return.

Currently, there are three School Census returns each year (i.e. Spring, Summer and Autumn), which collect detailed information about school characteristics and student details. Different data is collected depending on which return is being prepared and your school phase.

A list of items collected from Secondary/Middle deemed Secondary schools in England for the School Census Autumn 2019 Return is available in a later section of this handbook.

NOTE: The contents of the graphics (dates, names, panel numbers, etc.) are examples only of what you might expect to see when using SIMS to produce the School Census Return.

Prior Attainment

Tools | Statutory Return Tools | Update Prior Attainment

A new exemption code is now available, i.e. **Functional skills level 2**.

Students with a pass grade in maths or English **Functional skills level 2** can be recorded in the School Census Autumn 2019 onwards as an exemption (i.e. code **F - Functional skills L2** in the **Maths** or **English GCSE funding exemption**).

The highest grades for maths and English for the previous year (2018/2019) are included in the Autumn census.

Schools can now make corrections to the highest grades for the previous academic year and re-submit in the Autumn census.

The process of producing the School Census can be separated into a number of steps, some of which might need to be repeated to eliminate validation errors and queries.

Where to Find More Information

Online help can be accessed by pressing **F1** or clicking the applicable **Help** button in SIMS.

A wide range of documentation is available from the SIMS **Documentation Centre**, including handbooks, quick reference sheets and tutorials. Click the **Documentation** button located on the top right-hand side of the SIMS **Home Page**, select the required category and then select the document you require. Alternatively, use the **Search** facility to locate the required document.

Documentation is also available from the My Account website (<https://myaccount.capita-cs.co.uk>).

1. Enter the required text in the **Search** field to display a list of documents that match the search criteria.
2. To refine the search further, click **Documents** and then select the required **Document type**, **File type** and/or **Date** range (click **Show more** to view additional options, if required).

Alternatively, click **SIMS Publications** located in the **Popular Searches** list to display a list of all SIMS publications.

The search results are displayed automatically.

Tips for using the My Account Search Facility

Here are some key tips for using the search facility in My Account. For additional explanations, please refer to the My Account website.

NOTE: You no longer need to use + / - / "" when searching.

- Cut down on the amount of words that you type in the search field and only use key words, e.g. instead of typing `student showing as a contact` search for the word `contact`.
- Use the **Product Type** filter to refine results further.
- Use the advanced filters located on the left-hand side of the **Search results** page.

Additional Information

In addition to this handbook, a preparation guide that outlines how to prepare your data for the School Census, together with an Errors and Resolutions document that provides suggestions on how to resolve any validation errors or queries, are also available.

To access the School Census documents, please search for **CENSUS19** in the SIMS **Documentation Centre** or My Account.

Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. student details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see *Where to find More Information about Permissions* on page 5).

Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS) to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via **Tools | Setups | Import Fileset**), you must be a member of one of the following user groups in System Manager:

- Returns Manager
- System Manager.

For more information about the Import Fileset functionality, please refer to the applicable preparation guide, which is available via the SIMS **Documentation Centre**. Preparation guides are also available on the My Account website (<https://myaccount.capita-cs.co.uk>).

Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the *Managing SIMS Users, Groups and Databases* handbook.

An Excel spreadsheet describing the numerous permissions available in SIMS is available on the My Account website (<https://myaccount.capita-cs.co.uk>).

What Version of SIMS is Required?

To run the return, you must have the SIMS 2019 Summer Release (7.188) or later installed.

To check which version of SIMS is installed, open SIMS and then select **Help | About SIMS**. A dialog similar to the one shown in the following graphic is displayed.

The version should read 7.188 or later.

Creating a New School Census Return

Before creating a new return, ensure that all student and school information is present and accurate in SIMS.

It is possible to create more than one return, enabling you to carry out dry runs so that you can check what data needs to be added or updated. Any unwanted returns can be deleted (providing they have not been authorised).

Data is collected for the following students:

- All students on-roll on 03/10/2019 (census day).
- Any additional students not on-roll on census day who:
 - were on-roll for at least one session during the collection period from 22/04/2019 to 31/07/2019.
 - had an exclusion that started between 01/01/2019 and 31/08/2019.
 - had Learning Aims during the date range 01/08/2018 to 03/10/2019.

1. Select **Routines | Statutory Returns | School Census** to load the School Census validation and reporting files.

NOTE: The first time that the **Routines | Statutory Returns | School Census** menu route is selected during each SIMS session, there is a delay while the School Census files are loaded.

When the files are loaded, the **Census Return** browser is displayed.

NOTE: The **Fileset ID** is displayed in the browser header (for information only).

By default, the **Term** field displays the appropriate term for the selected return, in this instance **Autumn 2019**.

2. Ensure that the appropriate **Census Folder** is selected and that the required **Security message for Reports** is specified, as described in the following sections.

More Information:

Deleting an Unauthorised Return on page 59

Specifying the Security Message for Reports on page 11

Configuring the Census Folder

Before creating a return, the folder in which the return file will be saved must be specified.

IMPORTANT NOTES: Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.

You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (<https://www.gov.uk/service-manual/technology/securing-your-information>). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.

Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website (<https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr>).

1. In the **Census Folder** field, enter the location of the folder where the return files are to be stored.

Alternatively, click the **Browse** button to display the **Browse For Folder** dialog.

 *Browse button*

2. Navigate to the location of the required folder and highlight it. If a suitable folder does not exist, click the **Make New Folder** button, then enter a suitable name for the new folder.

IMPORTANT NOTE: *If you are changing the location of the folder, ensure that authorised personnel only have access to the new folder, as the folder will contain sensitive data. For more information, please see the important note at the beginning of this section.*

3. Click the **OK** button.
A message dialog requests confirmation that you want to continue.
4. Click the **OK** button to select or create the folder and return to the browser, where the new folder name is displayed.
5. Ensure that the **Security Message for Reports** is appropriate for your school.

Specifying the Security Message for Reports

At the bottom of the browser is the **Security message for Reports** field. This text displayed in this field is included in the header of each report.

1. The default text (**This report contains sensitive information**) can be edited, if required.
2. If any edits are made, you can click the **Default Message** button to revert to the original default text.
3. Click the **New** button to display the **Census Return Details** page.

Editing Census Details

The **Census Details** panel displays the following read-only information:

- Census Date 03/10/2019.
- Attendance data collected from 22/04/2019 to 31/07/2019.
- Exclusions data collected from 01/01/2019 to 31/08/2019.
- FSM (Free School Meal) data collected from 17/05/2019 to 03/10/2019.
- Learning Aims collected from 01/08/2018 to 03/10/2019.

1 Census Details

FSM collected from	17/05/2019	FSM collected to	03/10/2019
Learning Aims collected from	01/08/2018	Learning Aims collected to	03/10/2019

The default **Description (School Census Autumn 2019)** can be edited, if required, e.g. to identify a dry run.

WARNING: Each description used must be unique. An error message is displayed if SIMS identifies a duplicate description.

A unique description also helps to identify the required return when viewed in the **Census Return** browser and can be particularly useful when creating dry runs, or copies of existing returns.

Calculating All Details

Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

IMPORTANT NOTE: You must calculate all details at least once to populate the various panels for each return.

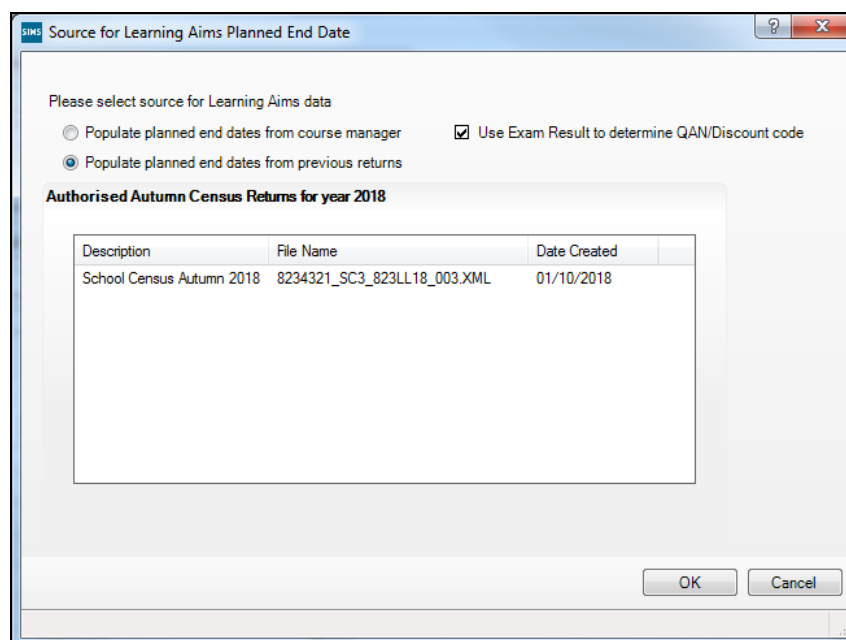

Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.

Any details that are calculated automatically should be checked and edited, if required.

1. Click the **Calculate All Details** button.
A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.

2. Click the **Yes** button to calculate all details.
At this point, depending on the number of students in the school, there might be a short delay while details are calculated.
When the Calculate All Details process is complete, the **Source for Learning Aims Planned End Date** dialog is displayed.
3. Specify the required source for the Learning Aims data:
 - **Populate planned end dates from previous returns** (default option)
Ensure that the **Populate planned end dates from previous returns** radio button is selected then highlight the required authorised Autumn Census Return.

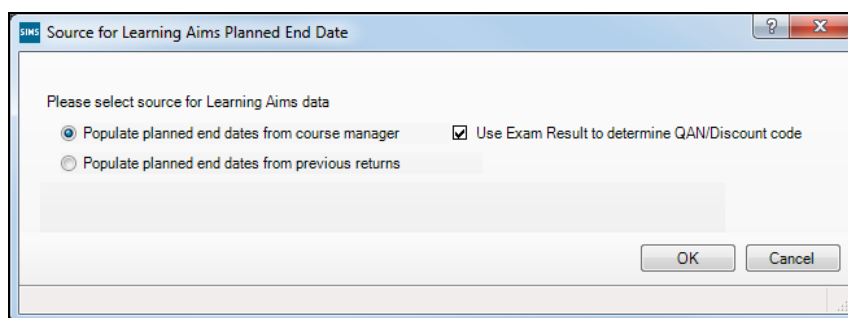

If more than one authorised School Census Autumn 2018 Return exists, the returns are listed in authorised date order.

- **Populate planned end dates from course manager**

An example of when this option could be useful:

If any two year Learning Aims were inadvertently given an end date last year that indicated a one year Learning Aim, selecting **Populate planned end dates from course manager** could save your school some time. This is only acceptable when correcting a mistake and not where it has been decided to change the length of time in which to deliver the Learning Aim.

Select the **Populate planned end dates from course manager** radio button.

4. If you want to **Use Exam Result to determine QAN/Discount code**, ensure that the associated check box is selected.

If QAN/Discount Code combinations from one or more Exam Boards do not follow the expected pattern and therefore cause incorrect allocation of QWS QAN/Discount Codes, it may be best to deselect **Use Exam Result to determine QAN/Discount code**.

If the check box is deselected, the QWS QAN code in Course Manager is reported rather than the Awarding Organisation (AO) QAN linked to the exam result.

5. Click the **OK** button.

*NOTE: If you choose to **Cancel** at this point in the process, Learning Aims Planned End Dates will be calculated from Course Manager.*

The applicable panels on the **Census Return Details** page are then populated with data.

6. The return can be saved at any point by clicking the **Save** button.

Editing School Information

The **School Information** panel displays details that have previously been recorded on the **School Details** page in SIMS (**Focus | Student | Student Details**). The information displayed might vary depending on your school and the details entered, e.g. Academy specific information.

The details displayed are read-only but can be amended, if necessary, via the **School Detail** button.

This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

Editing Students with Top-Up Funding

Top-up funding is supplied to schools, in most cases by the Local Authority, to meet the additional costs of support for high needs students.

The **Top-up Funding** panel enables you to record the on-roll students for whom your school is receiving top-up funding on census day.

If the students with top-up funding have been recorded previously via **Tools | Statutory Return Tools | Update Top-Up Funding**, the data is displayed in the **Top-up Funding** panel.

Editing Student Post Looked After Arrangements

The Post Looked After Arrangements routine provides schools with the ability to record whether students who are on-roll on census day were looked after immediately before adoption or prior to being the subject of a residence or special guardianship order.

- Click the **Recalculate** button (in the **Post Looked After Arrangements** panel) to ensure that all students who already have a PLAA status are displayed.

Entering Attendance Information

Summer term attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder students aged four to 15 inclusive on 31/08/2018 who were on-roll for at least one session during each Summer half term, i.e. from 22/04/2019 to 26/05/2019 and 27/05/2019 to 31/07/2019.

IMPORTANT NOTE: Clicking the **Calculate All Details** button overwrites any edited data in every panel with the original data stored in SIMS. Do not use this button if you wish to keep any changes you have made.

After the **Calculate All Details** button is clicked, the information displayed in the **Attendance** panel is dependent on which of the following is applicable to your school:

- Attendance/Lesson Monitor is in use, the attendance codes being used are DfE compliant and there are either missing marks or no missing marks.
- Attendance/Lesson Monitor is in use and the attendance codes being used are DfE non-compliant.
- Attendance/Lesson Monitor is not in use.

SIMS Attendance/Lesson Monitor Users

If SIMS Attendance/Lesson Monitor is in use, ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the return.

TIP: After the Create and Validate process is run, the Attendance detail report can be used to assist with the checking of attendance data. Select **Attendance Report** from the **Detail Report** drop-down list.

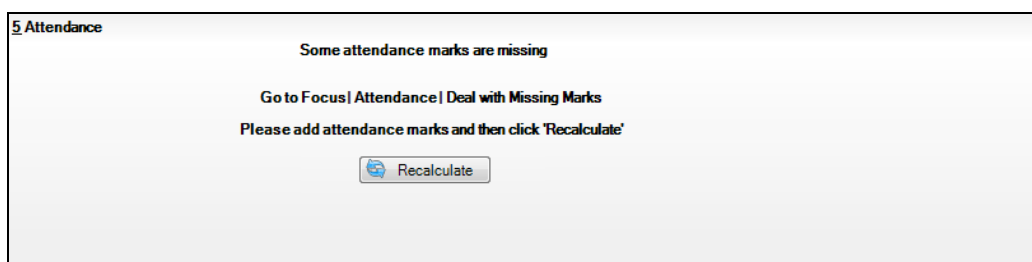

Are your Attendance Codes DfE Compliant?

If Attendance/Lesson Monitor is in use and your school is using DfE compliant attendance codes, attendance data is entered directly into the return, providing that there are no missing marks.

If all attendance marks have been entered in Attendance/Lesson Monitor, the following message is displayed in the **Attendance** panel, informing you that your attendance codes are DfE compliant but will be rechecked at the Create and Validate stage.

However, if any missing attendance marks are detected, the following message is displayed in the **Attendance** panel, requesting that you add the missing attendance marks.

1. Use the Deal with Missing Marks routine (**Focus | Attendance** (or **Lesson Monitor**) | **Deal with Missing Marks**) to locate the missing marks and enter appropriate attendance codes.
2. Return to the **Census Return Details** page and click the **Check missing marks** button in the **Attendance** panel to ensure that all missing marks have been dealt with.

NOTE: The Create and Validate process can still be run even if some attendance marks are missing. You will be asked if you wish to continue to create the return or cancel the Create and Validate process.

More Information:

Producing Detail Reports on page 45

Are your Attendance Codes DfE Non-Compliant?

If Attendance/Lesson Monitor is in use but one or more invalid attendance codes have been detected, a message is displayed in the **Attendance** panel to inform you that your attendance codes are not DfE compliant.

03/ Producing the School Census Autumn Return

1. Non-compliant codes must be dealt with. Please contact your Local Support Unit for assistance.
2. Click the **Check attendance codes** button to check that DfE attendance codes are now in use.

If the attendance codes are now DfE compliant, a message informs you that the codes will be rechecked at the **Create & Validate** stage.

3. Click the **OK** button to continue.

SIMS Attendance/Lesson Monitor Not in Use

If Attendance/Lesson Monitor is not in use, the following data must be entered manually for the two specified collection periods, i.e. from 22/04/2019 to 26/05/2019 and 27/05/2019 to 31/07/2019:

- Total Possible Sessions (**T Poss Sessions**)
- Total Sessions Missed due to Authorised Absence (**T Auth Absences**)
- Total Sessions Missed due to Unauthorised Absence (**T Unauth Absences**).

Checking Post 16 Learning Aims Data

Learning Aims data is collected from Secondary schools with Sixth Forms, (including Middle deemed Secondary schools, All-Through school, Pupil Referral Units, City Technology Colleges and Academies (including Free schools)).

The Post 16 Learning Aims are collected once a year only, in the School Census Autumn Return. Learning Aims are collected from the previous year, i.e. any that were active in 2018/2019, and those for the current academic year 2019/2020.

All Learning Aims in the specified period (01/08/2018 to 03/10/2019) are included in the return, regardless of whether the minimum qualifying period of six weeks, for a one or two year course, was achieved.

Exam results, e.g. A, A*, etc. and the outcome of the previous year's Learning Aims (pass, fail or result not known) are not collected in this year's Autumn return. However, results are displayed in the **Learning Aims** panel for identification purposes only, provided that the **Use Exam Result to determine QAN/Discount code** check box has been selected (in the **Source for Learning Aims Planned End Date** dialog) when calculating all details.

Discount Codes (also known as Subject Classification Code) are collected in the School Census Autumn 2019 Return.

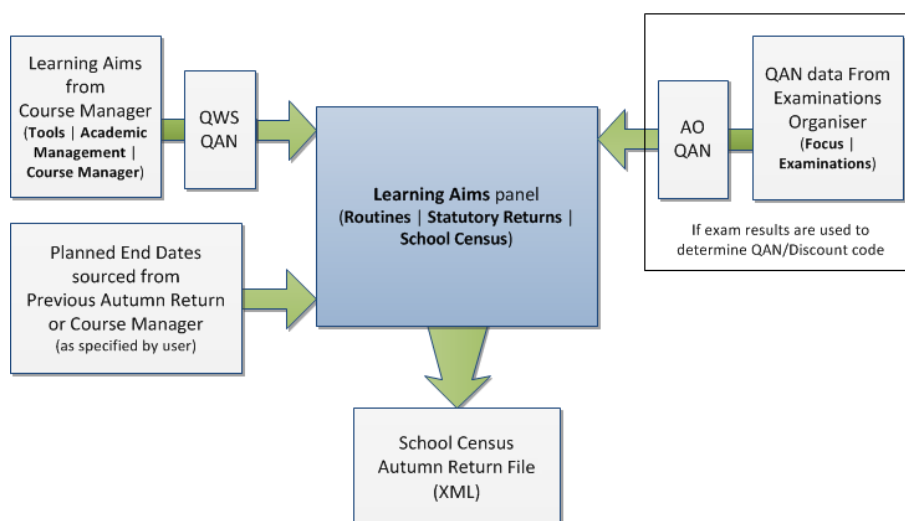

IMPORTANT NOTES:

Learning Aims are required for learners in National Curriculum Year Group (Year Taught In) 12 or above, who have an enrolment status of Single Registration or Dual Registration, and for whom the school wishes to claim Post 16 funding from the Education and Skills Funding Agency (ESFA).

Learners are expected to be in National Curriculum Year 12 and above if the majority of their learning is at level 3 or above.

Students in Actual National Curriculum Year Group 11 (or below) with the majority of their learning at level 2 are no longer included in the return.

The **Learning Aims** panel is provided to enable you to check the Learning Aims that will be included in the School Census Autumn 2019 Return.

In the previous graphic, QWS QAN refers to the Qualification Accreditation Number obtained from the DfE QAN website and AO QAN refers to the Awarding Organisation QAN imported with the Exams Basedata from the Awarding Organisation.

The **Learning Aims** panel includes the following functionality:

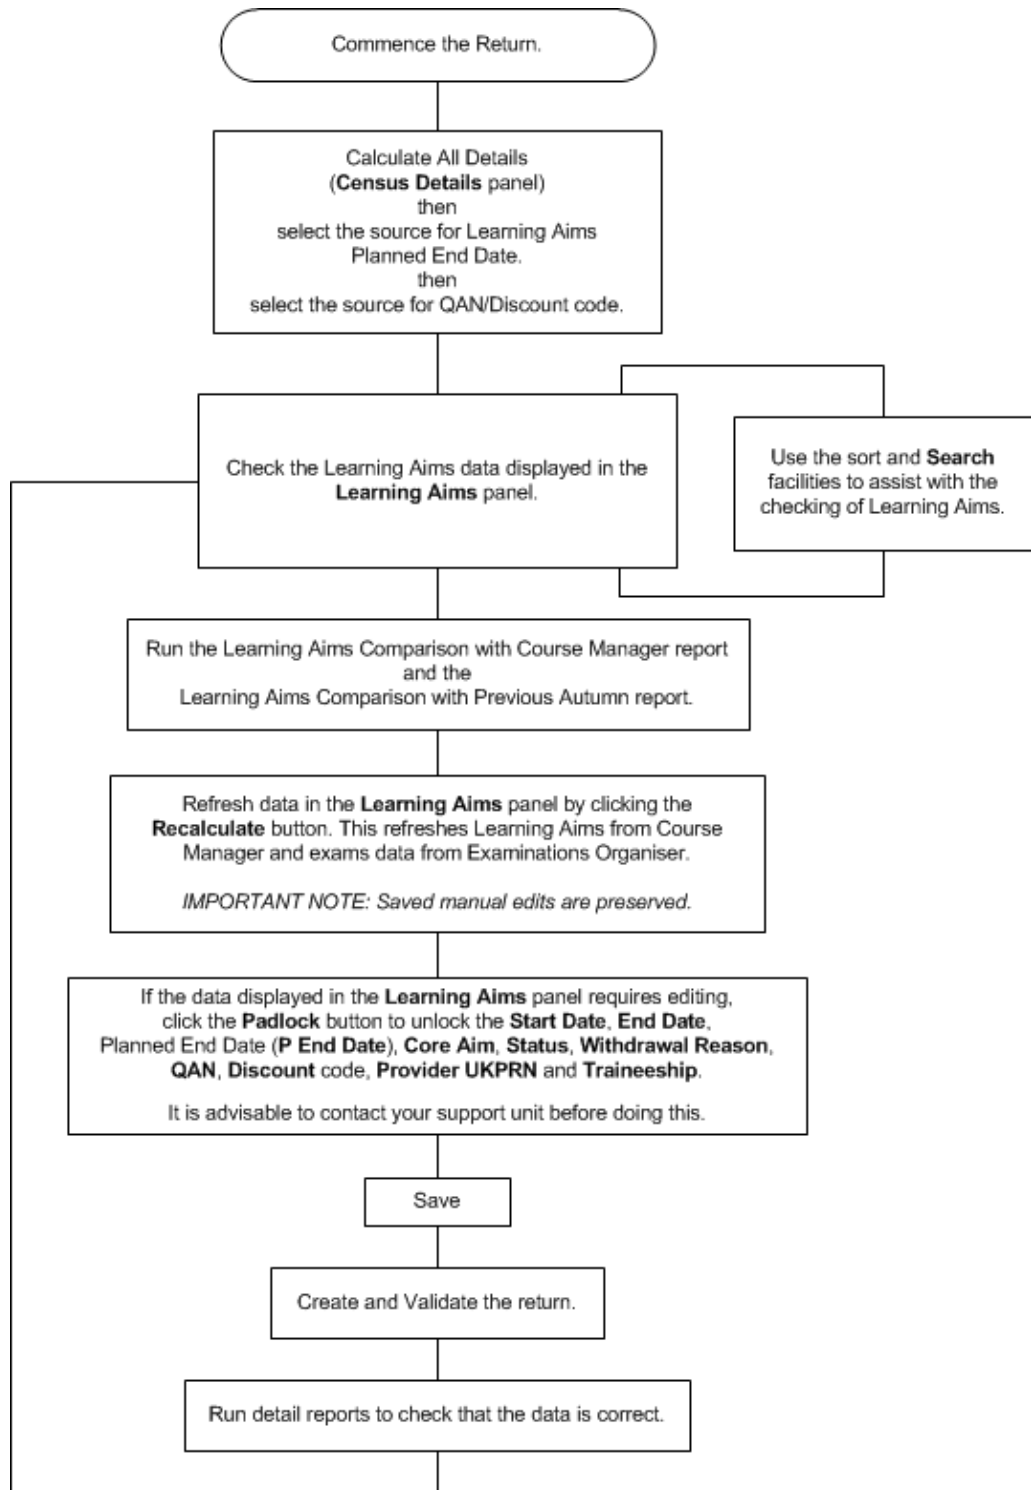

- **QAN** - also known as Qualification Number (QN).
- **Discount Code** - also known as Subject Classification Code (SCC).
- **Result** for identification purposes only.
- Comprehensive filtering of data (please see *Finding your way Around the Learning Aims Panel* on page 28).
- Recalculating data in the **Learning Aims** panel refreshes the display with data from Course Manager and Examinations Organiser. Any saved edits are preserved when the Recalculate routine is run (please see *Recalculating Learning Aims Information* on page 33).
- The provision of the following reports to assist with the checking of information:
 - Learning Aims Comparison with Course Manager report (please see *Comparing Learning Aims Information with Course Manager Data* on page 31).
 - Learning Aims Comparison with the Previous Autumn report (please see *Comparing Learning Aims Information with the Previous Autumn Data* on page 32).
- By default, the data in the **Learning Aims** panel cannot be edited.

Full editing of the Learning Aims start date, end date, planned end date, core aim, status, withdrawal reason, QAN, discount code, provider UKPRN and traineeship, can be achieved by clicking the **Padlock** icon to unlock the **Learning Aims** panel. A white background indicates that the column can be edited.

16	<p>The Core Aim is the primary Learning Aim being undertaken in a student's programme of study. The School Census Autumn 2019 requires that the core aim is identified for each year where a vocational Education and Skills Funding Agency (ESFA) study programme is being followed. If a student is following an academic programme, a core aim does not need to be identified.</p> <p>It is possible to have a different Core Aim for 2018/2019 than for 2019/2020. The additional Core Aims can be entered directly into this panel by clicking the Add button then completing the details in the different columns.</p>
17	<p>The Planned End Date (P End Date) included in the return must always be the date agreed when the Learning Aim commenced and must not reflect any change of plan for the Learning Aim. Editing Learning Aim Details

If the **Unlock Padlock** icon is displayed, the **Start Date**, **End Date**, **Planned End Date (P End Date)**, **Core Aim**, **Status**, **Withdrawal Reason**, **QAN**, **Discount** code, **Provider UKPRN** and **Traineeship** associated with each Learning Aim can be edited manually.

Manually edited data is highlighted in yellow, for example:

- If the Learning Aim end date is changed to before the planned end date and the status has been edited manually to complete, the **End Date** cell and **Status** cell are highlighted in yellow.
- If a QAN or discount code is accidentally edited to an incorrect value.

Data is also highlighted in yellow if:

- Learning Aims retrieved from Course Manager or the exams data retrieved from Examinations Organiser is different to that originally displayed in the **Learning Aims** panel, the applicable cell is highlighted with a bright yellow background.
- the planned end date has been overwritten with data from the previous Autumn return, the cell is highlighted in yellow.

NOTE: Yellow highlights indicate a difference between values collected for the census and values recorded in Course Manager. Yellow highlights do not indicate errors.

8. To indicate that a student is undertaking a traineeship, click the required **Traineeship** cell to display a tick. Clicking the cell again removes the tick.

*NOTE: Edits made in the **Learning Aims** panel do not overwrite data held in Course Manager or Examinations Organiser.*

If the **Unlock Padlock** icon is displayed, it is also possible to **Add** and/or **Exclude** Learning Aim records from the return.

Adding a New Learning Aim Record

A new Learning Aim record can be added to the list displayed in the **Learning Aims** panel, provided that the **Unlock Padlock** icon is displayed.

You may want to add a Learning Aim if, for example, your school holds the main registration for dual registered students. All Learning Aims must be returned by the school that holds the student's main registration because it will receive funding for that student and it is responsible for their performance.

*NOTE: Edits made in the **Learning Aims** panel do not overwrite data held in Course Manager.*

The Add Learning Aim routine enables you to select the required student then the applicable QAN/Discount Code.

1. Ensure that the **Unlock Padlock** icon is displayed in the top right-hand side of the **Learning Aim** panel.
2. Click the **Add** button to display the first of the **Add Learning Aim** dialogs. The search criteria, i.e. **Surname**, **Forename** and year taught in (**YTI**), can be used to filter the student records, if required.
3. Click the **Search Students** button to display a list of students who match the search criteria.

The screenshot shows the 'Add Learning Aim' dialog box. At the top, there are search fields for 'Surname', 'Forename', and 'YTI' (set to 12). Below these is a table of student records:

Surname	Forename	YTI	ULN
Oglander	Ralph	12	5142369008
Orton	Natalia	12	5142368990
Osmond	Debbie	12	5142368982
Ouchakov	Anton	12	5142368974
Parker	Joel	12	5142368966
Parker	Peter	12	5142368958
Perch	Penny	12	5142368931
Peterson	Julie	12	5142368923
Piper	Edwina	12	5142368915
Poynter	Jon	12	5142368907
Prowse	Reggie	12	5142368893
Quinn	Emma	12	5142368885
Rahman	Zena	12	5142368877

Below the table, the 'Selected Student' field displays 'Peterson Julie'. At the bottom, there are 'Previous' and 'Next' navigation buttons, and 'OK' and 'Cancel' buttons.

- Highlight the student whose record you wish to add, then click the **Next** button to display the second **Add Learning Aim** dialog, where the required QAN/Discount Code can be selected.

The search criteria, i.e. **QAN/Discount Code** and **Description**, can be used to filter the Learning Aim records, if required.

- Click the **Search QAN** button to display a list of QAN/Discount Codes that match the search criteria.

- Highlight the required QAN/discount code then click the **OK** button to return to the **Learning Aims** panel.

The new record is added to the bottom of the list and is highlighted in yellow. When the data is saved, the new record is sorted into alphabetical order.

- Edit the **Start Date**, **End Date**, Planned End Date (**P End Date**), **Core Aim**, **Status**, **Withdrawal Reason**, **QAN**, **Discount** code, **Provider UKPRN** and **Traineeship**, if required.
- Click the **Save** button.

Excluding Learning Aim Records

Learning Aim records can be excluded from the School Census Autumn 2019 Return, provided that the **Unlock Padlock** icon is displayed. The exclusion of a record might be necessary if, for example, your school has a dual registered student but they have their main registration at another school and therefore your school does not wish to claim Post 16 funding for that student.

The **Exclude/Restore** toggle button is provided to enable you to exclude Learning Aim(s) from the return and, if necessary, restore them again, e.g. if they were excluded in error. An excluded record cannot be edited but remains visible for reference only.

NOTE: Edits made in the **Learning Aims** panel do not overwrite data held in Course Manager or Examinations Organiser.

1. Ensure that the **Unlock Padlock** icon is displayed in the top right-hand side of the **Learning Aim** panel.
2. Click the name of the student whose Learning Aim record you wish to exclude. An arrow to the left of the student's name indicates that the record has been selected.

Creating and Validating a School Census Return

A return must be created, validated and authorised before it can be sent to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

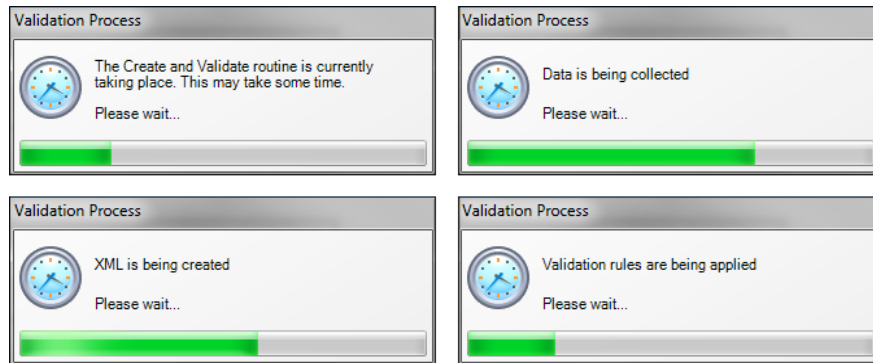

Validating the return creates an unauthorised return file, which is then run against a set of DfE rules. When the validation is complete, a list of errors and queries is displayed.

An error is caused by either missing or inaccurate data, whilst a query highlights data which is unusual or not as expected, e.g. there are no students with special educational needs.

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return** browser.
2. Click the **Search** button to display a list of returns.
3. Double-click the required return to display the **Census Return Details** page.
4. Click the **Create & Validate** button to begin the process. There may be a short delay, depending on the number of students at your school.

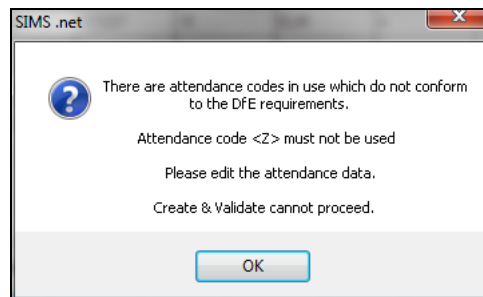

04 | Completing the School Census Autumn Return

A progress bar is displayed indicating that the Create and Validate process is being performed.

If there is an irregularity in the attendance marks, one of the following messages is displayed:

- If the attendance codes are not DfE compliant, the following message is displayed, informing you which code(s) must not be used.

The lack of compliance must be dealt with before the Create and Validate process can be performed. Please contact your Local Support Unit for assistance.

- If no attendance marks are found and SIMS Attendance is in use, the following message is displayed informing you that the create and validate process cannot proceed.

Click the **OK** button then edit the attendance data before attempting to create and validate the return again.

- If there are any missing attendance marks, the following message is displayed enquiring as to whether you wish to continue with the Create and Validate process.

Click the **Yes** button to continue creating and validating the data.

Alternatively, click the **No** button to cancel the process, then use the Deal with Missing Marks routine (**Focus | Attendance | Deal with Missing Marks**) to locate the missing marks and enter appropriate attendance codes. For more information, please refer to the *Managing Pupil/Student Attendance* handbook, as appropriate.

When the validation process is complete, the **Validation Errors Summary** panel is displayed at the bottom of the screen.

The **Validation Errors Summary** displays the following information:

- **Type** - the type of validation rule.
 - Failure (**F** displayed in red) indicates an error that must be resolved.
 - Query (**Q** displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.
- **Sequence** - the validation error or query number.
- **Message** - the validation error or query message text.
- **Location** - the specific record in SIMS that contains the error or query.
- **Solution** - the SIMS menu route and/or instructions about where/how the error can be corrected or the query checked.

TIP: Using the Solution hyperlinks

When the pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the problem can be checked.

A hyperlink is also indicated by a hash symbol (#) preceding the **Solution** text.

Click the required hyperlink to display the specific area in SIMS where the record(s) can be checked/corrected.

To assist in the viewing of any errors and queries:

- When the mouse pointer is hovered over a **Message, Location** or **Solution** cell, hover help displays the entire content of that cell.
- The Student Search functionality can be used to display all errors and queries relating to a particular student. Enter all or part of a UPN, student's surname or date of birth in the **Student Search** field then select the required record from the **Student Search** drop-down list to populate the **Student Search** field. Click the **Find** button to display the applicable validation records.
- Use the **Errors Search** to display the required error or query you want to view. Select **ALL, ERRORS, QUERIES** or the required number from the drop-down list. The total number of rows that relate to the selected validation is displayed adjacent to the **Error Search** field.
- By default, when **ALL** is selected from the **Errors Search** drop-down list, the errors are displayed at the top of the list.

The order of the items in the list can be changed by clicking the appropriate column heading.

The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures by clicking the **Report** button (located at the left-hand side and directly above the **Validation Errors Summary** panel). The report is displayed in your web browser, from where it can be printed or transferred to another application, if required (please see *Transferring Report Data to a Spreadsheet* on page 52).

The report (ValidationErrorsSummary.HTML) is saved automatically in the **Census Folder**, which was specified previously in the census browser. The original report, which was generated when the **Create & Validate** button was clicked (e.g. <LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Student | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been created and validated.

Printing a Report from your Web Browser

IMPORTANT NOTE: Any printed reports containing information that could identify a person (e.g. their name, address, UPN, etc.) should be used for validation purposes only and should not be retained. The Security Message (displayed at the top of each report) can be customised to include, for example, instructions for the destruction of the printed reports.

1. With the generated report displayed in your web browser, select the **Print** option (**Ctrl+P**) to display the **Print** dialog.
2. Ensure that the print settings are correct then click the **Print** button.
3. Click the **Close** button on the top right-hand corner of the web page to close the report and return to the census page.

Transferring Report Data to a Spreadsheet

Transferring a report to a spreadsheet application enables the data to be sorted, the column order to be changed, etc.

With the generated report displayed in your web browser, right-click the report and then select the required option, e.g. **Export to Microsoft Excel**, from the drop-down list.

IMPORTANT NOTE: The spreadsheet contains the same level of sensitive information as the original HTML report from which the information was transferred. Therefore, the spreadsheet file must be saved to a folder with the same level of security.

Deleting Temporary Web Browser Files

It is recommended that, after viewing statutory returns reports, you delete any temporary web browser files to ensure that any cached data (i.e. data stored on your machine, which enables high-speed access to previously viewed data) is removed.

This prevents the information, e.g. copies of web pages that are stored in the local cache for faster viewing, remaining on the hard disk of the PC in the temporary directory, where they are not secure because they can still be accessed.

When this process is performed, all temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.

To clear the cache, open your web browser, then clear the browsing data history via Settings. For more information, please refer to the documentation applicable to the web browser you are using.

Producing the Summary Report

The Summary report enables the school staff, who are involved in the return's preparation, to assess the accuracy and completeness of the return data. It should then be passed to the Head Teacher for their review.

NOTE: When the return is authorised, the Summary report is automatically generated and displayed in your web browser.

Generating the Summary Report

Click the **Summary** button located at the top of the **Census Return Details** page. The report is automatically displayed in your web browser, but can be transferred to a spreadsheet such as Microsoft® Excel if required.

The report is saved automatically in the **Census Folder**, which was specified in the **Census Return** browser, e.g. S:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that is made up of the following data fields separated by underscores ('_'): <LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_<name of the report>_Report.html

For example: 8234321_SC3_823LL19_001_Summary_Report.html.

It is important that the Head Teacher checks all the information on the Summary report before the return is authorised. Your LA/DfE might request that a copy of the Summary report (which is automatically generated when the return is authorised) is signed by the Head Teacher and sent to the LA/DfE when the return has been authorised.

Editing an Unauthorised Return

The return details, e.g. **Description**, **School Information**, etc. can be edited via the **Census Return Details** page at any time prior to authorisation.

IMPORTANT NOTE: *An authorised return cannot be edited. If changes are required to an authorised return, use the **Copy** facility to produce a duplicate return (with a unique description) in which the changes can be made.*

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Ensure that the **Census Folder** and the **Security message for Reports** are correct, then click the **Search** button to display any previously created returns. Unauthorised return files can be recognised by their .UNA suffix.
3. Double-click the required return. Alternatively, highlight the required return, then click the **Open** button to display the **Census Return Details** page.
4. Edit the return details as required.
5. Click the **Create & Validate** button to display the **Validation Errors Summary** panel.
6. Run the detail reports and Summary report and then use the information they provide to assist with resolving errors and queries.
7. Repeat the editing and Create & Validate process again, if necessary.

Authorising the Return

A return must be authorised before it can be submitted to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school). If you authorise a return and subsequently need to make amendments, you must either make a copy of the return and work on the copy, or create a new return.

Before authorising the return, you should ensure that all the information displayed on the **Census Return Details** page is correct and does not require further editing. This is because it is not possible to edit details after the return is authorised. The Summary report can assist in reviewing the information.

1. Click the **Authorise** button.

If missing marks exist, the following message is displayed.

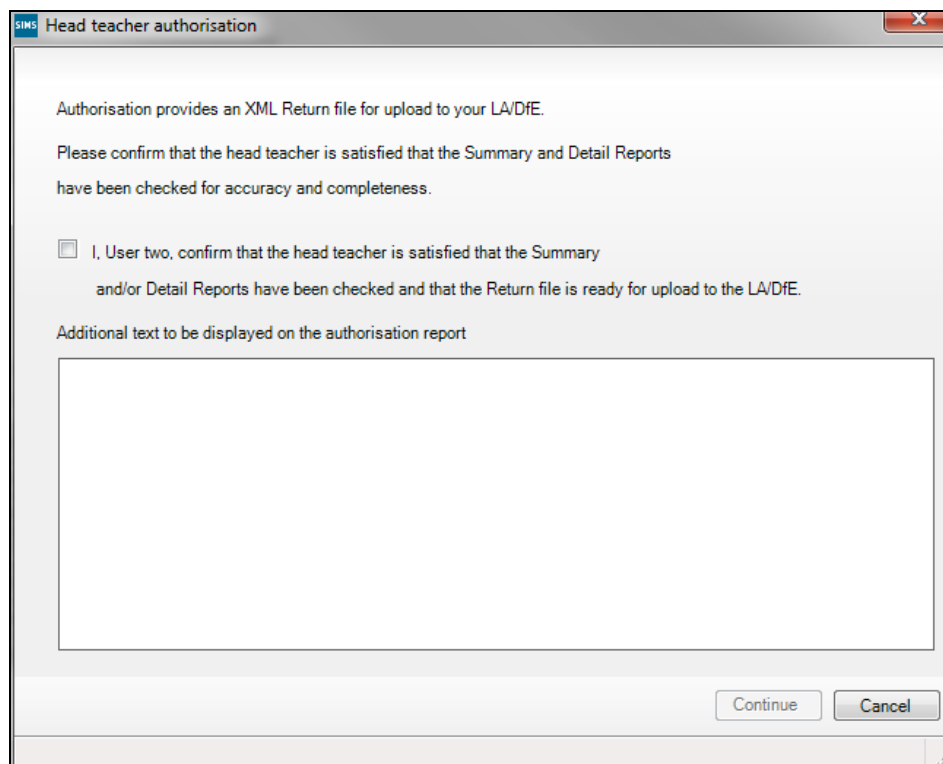

2. Click the **Yes** button to continue with the authorisation process or the **No** button if you want to return to SIMS where the missing marks can be entered.

If you choose to continue, a message reminds you that the return cannot be edited once it is authorised.

3. Click the **Yes** button to continue or the **No** button to return to SIMS where edits can be made to the data before authorising.

If you choose to continue, the **Head teacher authorisation** dialog is displayed.

4. Enter any additional text to be displayed on the authorisation report, if required. This may be requested by your LA, e.g. to explain the reason for any validation failures.
5. Select the confirmation check box to confirm that the Head Teacher is satisfied that the Summary and/or detail reports have been checked and that the return file is ready for upload to your LA/DfE.

When the confirmation check box is selected, the **Continue** button is activated enabling you to complete the authorisation process.

6. Click the **Continue** button to authorise the return.
 - The return file extension changes automatically from UNA (unauthorised) to XML (authorised).
 - The Summary report, Authorisation report and Validation Errors Summary report are generated automatically and displayed in your web browser, from where they can be printed, if required.
 - The Learning Aims Comparison with Course Manager report and Learning Aims Comparison with the Previous Autumn report are generated automatically and displayed in your web browser, from where they can be printed, if required.

All reports (including detail reports) and the XML file, are saved in the **Census Folder**, which was specified previously in the **Census Return for Autumn 2019 Term** browser.

These reports can be viewed using the Retrieve Authorised Census Return Files routine (via **Tools | Statutory Return Tools**). This routine also provides the opportunity to download the files to a different folder.

IMPORTANT NOTE: *The retrieved files contain sensitive information. Ensure that authorised personnel only have access to the download folder.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

After the return is authorised, reports based on cohorts can be created (via **Reports | Design Reports**), so that items collected in the return can be tracked. Provided that **Student** has been selected as the data area, the Statutory Returns sub-report is available for selection when specifying the fields to be included in the report (the last node).

Submitting the Return

When the return has been completed and the Summary report has been signed by the Head Teacher (if requested to do so by your LA), the .XML file can be uploaded to the DfE COLLECT data collection website or sent to your LA, depending on the instructions you have been given.

Guidance about how Local Authorities, schools and academies should submit school census data is available on the GOV.UK website (<https://www.gov.uk/guidance/school-census>).

The authorised return file is located in the folder previously specified in the return browser. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

IMPORTANT NOTE: *An authorised file cannot be edited. If you need to make changes to an authorised file, you must make a copy of the original file, rename it and work on the copy.*

Retrieving Authorised Census Return Files

Authorised returns are stored in your Document Management Server (DMS). The Returns Manager can download and run the reports associated with previous authorised returns enabling the data for the current return to be compared with that submitted previously.

1. Select **Tools | Statutory Returns Tools | Retrieve Authorised Census Return Files** to display the **Retrieve Authorised Census Return Files for <census name>** page.
2. Select the type of census required from the **Return Type** drop-down list to display a list of previous returns that match the selected criteria.
3. By default, the files **Download to** the folder specified in the census browser. To specify a different folder:
 - a. Click the **Select a Folder** button (...) to display the **Browse For Folder** dialog. Navigate to the location of the required folder then highlight it. If a suitable folder does not exist, click the **Make New Folder** button then enter a suitable folder name.

IMPORTANT NOTE: *Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

- b. Click the **OK** button to select or create the folder then return to the **Retrieve Authorised Return Files for <census name>** page where the chosen folder name is displayed in the **Download to** field.
4. Highlight the return you wish to retrieve then click the **Retrieve Files** button.

The authorised return file (i.e. the XML file) and all reports associated with the selected return are downloaded from your DMS to the specified folder. The folder and its contents are then displayed automatically, enabling you to open the required files in your web browser.

5. The contents of the specified folder can be viewed again by clicking the **Folder** button adjacent to the **Download to** field.

If you want to create reports based on cohorts, so that items collected in the return can be tracked, a sub-report is available (via **Reports | Design Reports**).

The **Statutory Returns** sub-report is available for selection only if **Student** has been selected as the Data Area.

When you **Select fields to be included in the report**, the **Statutory Returns** sub-report is located at the bottom of the list (the last node).

Three options are available for selection under this sub-report: **Authorised Date**, **File Name** and **Return Description**.

Copying a Return

An unauthorised return can be copied and saved as a new return. This enables a 'snapshot' of a return to be taken at any time providing a backup of any manual changes that have been made to the return, for example before recalculating details.

This functionality can also be used to make a copy of an authorised return if the LA or DfE requires it to be resubmitted. The necessary corrections can then be made to the data. The copied return must be saved, created, validated and authorised before resubmitting.

NOTE: Ensure that the return you wish to replicate is not open at the time of copying.

1. Select **Routines | Statutory Returns | School Census** to display the census browser.
2. Click the **Search** button to ensure that the list of returns is displayed.
3. Highlight the file you want to copy and then click the **Copy** button.

A message requests confirmation that you wish to make a copy of the selected return.

IMPORTANT NOTE: Any values for attendance (where applicable), Early Years, Post Looked After Arrangements and Top-up Funding will not be copied but will be populated from the current values held in the database. The Create & Validate routine must be run to generate a new census file.

4. Click the **Yes** button to make the copy, which is then displayed in the browser as:
Copy of <description of selected file>.
5. To rename the copied return, highlight it, then click the **Open** button to display the **Census Return Details** page.
6. In the **Census Details** panel, edit the **Description** and then click the **Save** button.

IMPORTANT NOTE: A unique description must be used for each return. If duplicate returns are detected, an error message is displayed.

Deleting an Unauthorised Return

During the return process, a number of copies of the return may be created, e.g. to track progress. When the return has been authorised successfully, it is advisable to delete any versions of the return that are no longer required. This keeps the number of files in the storage folder and listed in the browser to a minimum, therefore removing confusion and lessening the risk of selecting the wrong return.

The Delete routine can be used to remove unwanted returns at any time prior to the relevant return being authorised.

IMPORTANT NOTES: Any return files that have already been authorised cannot be deleted.

When a return file is deleted, any associated files, e.g. Validation Errors Summary, detail reports, etc. that have been produced are also deleted.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Click the **Search** button to ensure that the list of return files is displayed.
3. Highlight the return file to be deleted, then click the **Delete** button. A message prompts for confirmation that the selected return should be deleted.
4. Click the **Yes** button to permanently delete the selected return file and all associated report files.

The selected return file and associated reports are removed from the browser and the storage folder.
