Potential Risk of Flooding

 Potential Risk of Flooding  Medway administrative boundary

This map is intended for the purposes of applying the Sequential Test. A number of datasets have been used in the derivation of the mapped extents. The datasets used may have been designed to be viewed at a range of map scales, and therefore this map is not designed to be viewed at a site-specific scale. Nevertheless, the extents provide an indication of areas potentially at risk of flooding from a number of sources at a strategic level. However, due to the methods used in deriving these extents, a more detailed assessment of the risk of flooding may still be required.

This map is reproduced from Ordnance Survey material with the permission of Ordnance Survey on behalf of the controller of Her Majesty's Stationery Office © Crown copyright.
