

## The Platters

The Platters is a great location for walking, jogging or running in all weather conditions. It's a paved course for the duration of the mile. There is a slight incline for approximately 30 meters.

To complete a mile, all you need to do is walk four times around the whole park and then once around half of the park. See the map above.

It's best to start at The Mailyns entrance but you can start from the alley entrance off The Platters too.
